## The Dillon Energy Difference...

Trust, superior service, and reliability. These are the hallmarks of the long-term business relationships Dillon Energy Services establishes with our customers.

President and founder Gary Dillon has been active in the Michigan deregulated natural gas industry since 1986. Gary and his executive team bring our customers decades of experience, knowledge, and expertise.

Dillon Energy Services offers energy management solutions and supply for industrial, commercial, public sector, and residential customers. Our long-standing customers include schools and colleges, manufacturers, hospitals, apartment complexes, cities and municipalities, and hotels and resorts.

## Natural Gas

### Transportation Gas

- Buy gas from Dillon Energy Services rather than the utility to lower your operation costs
- Innovative purchasing strategies
- Preparation & review of purchase agreements and utility agreements
- Protection from penalties
- Preparation of usage, savings and budget reports
- For customers with annual usage more than 15,000 Mcf

## Electricity

### Electric Customer Choice

Choose an alternative electric supplier instead of the utility. Lock in a lower electric price, an opportunity that will only gain value as utilities' rates increase.

### Dillon Energy Services offers:

- A competitive, fixed price
- Insulation from a rising electric market
- Typical savings ranging between 8 and 20%
- An estimate of your savings potential

## Green Solutions for the Hospitality Industry

Energy is the second largest operating expense for hotels and also the most controllable. Cut energy use and costs in three easy steps:

### Lighting

Upgrade incandescent and halogen lights to LED, linear fluorescent, and CFL lamps. Add occupancy sensors to turn off lights in vacant rooms.

Savings: 50 to 75%

### Natural Gas Customer Choice

- Choose Dillon Energy Services as your Alternative Gas Supplier to heat your home or business
- Get a gas rate that may be lower than the utility's monthly rate
- For customers in the DTE Energy/MichCon & Consumers Energy gas service areas
- Fixed rate and variable rate pricing plans
- We are licensed by the Michigan Public Service Commission
- For customers with annual usage below 15,000 Mcf

## Utility Bill Analysis

We help you take control of your energy use by providing:

- A benchmark of usage & energy supply costs
- Usage breakdown by customer location
- Assurance that you are getting the most favorable utility rate
- Help in recovering funds through correction of possible billing errors and surcharge fees

### Guest Room Energy Management Systems

Automatically turn off lights and HVAC systems when not in use with occupancy-sensing PIR and keycard-operated systems.

Savings: 20 to 45%

### Water Conservation

Our water-saving devices for sinks, showers, toilets, and urinals conserve water.

Savings: Up to 25%
